## FIGHTING AT ELANDSLAAGTE

London, April 12.—[Special Cablegram]—The Boer army has been defeated in a big battle at Elandslaagte.

Stockholm, April 12.—[Special Cablegram]—A private dispatch from St. Petersburg says that an ultimatum signed by Russia, France and Holland will be presented to England if the railway from Beira to Umtali in Portuguese East Africa is used to transport British troops into Rhodesia.

BADEN-POWELL REPORTED DEAD  
News Comes From Pretoria to That Effect—A Brave Soldier.

London, April 12.—A dispatch from Pretoria, under the date of April 10, says that it is reported there that

BADEN-POWELL.

Colonel Baden-Powell (the British commander at Mafeking) is dead.  
No confirmation of the report has been received from British sources, but as the imperial forces are unable to communicate with the besieged town except by Kafir messengers, while the Boers have telegraphic communication between the Transvaal capital and the resisting army it is not unlikely that the first news would come from Pretoria.  
Pluck, resourcefulness and an inexhaustible fund of humor carried Colonel Robert S. Baden-Powell, the hero of Mafeking, through the long days of stubborn defense and stern fighting. The confidence that he could hold the place against all the force that the Boers could bring against him never wavered.

Baden-Powell knew the Boers thoroughly to begin with. He was at Cape Town as assistant military secretary to General Sir Henry Smyth in 1897, and served in the Zululand campaign. In some Ashanti warfare later he began a special career as an organizer and leader of irregular forces. Pioneering, scouting and outpost work all became familiar duties to the efficient force of native levies with which he gained success among the west coast tribes.

## SCOUTS THE STORY OF DEFEAT.

London War Office Loath to Believe Boer Victory.

London, April 12.—Gen. Dewet's alleged important victory at Meerkatsfontein is discredited at the British war office. A general impression prevails that these rumors of a third defeat of the British are only exaggerated stories, received from Boer sources, concerning the late affair at Reddersburg. No one seems to know exactly where Meerkatsfontein is situated. The only place of that name is eight miles south of Kroonstad, but no British force is known to have reached that point. It is significant that these stories come entirely from the Boers. Lord Roberts, who has always been as prompt to report disaster as victory, says not a word of any such affair, and it may be well to wait for confirmation of the report before giving it credit.

## THIRTY PEOPLE ARE BURIED IN THE RUINS

Collapse of a Four Story Lead Works  
Warehouse at Pittsburgh This  
Morning.

Pittsburgh, Pa., April 12.—[Special Telegram]—The four story warehouse of the Armstrong & McKelvey white lead works collapsed at 9:30 o'clock this morning. It is reported that there were thirty people in the building at the time. The building is a complete wreck. The cause was due to the removal of a partition wall adjoining the building under going repairs and the rains weakening the foundations.

At eleven o'clock the body of Oscar Bigel, a carpenter, was taken from the ruins. Nine injured were removed from the debris, several seriously hurt.

The office of the building is completely covered, and it is feared that the manager of the company and all the clerks are buried there.

The collapse has caused great excitement in the neighborhood, on account of a resemblance to an earthquake. The people passing by were struck by bricks and timber and some were buried.

While the workmen were engaged in the rescue, a part of the overhanging roof fell, fatally injuring James Schloss, a fireman.

## HANNA FAVORS BLISS

Woodruff, However, Remains an Aspirant for the Vice Presidential Nomination.

New York, April 12.—After a thirteen-hour discussion with Senator Hanna, Lieutenant Governor Woodruff is still in the race for the nomination for vice president. The discussion began at the Waldorf-Astoria, just before the lieutenant governor started to Philadelphia, where he was booked to speak at a dinner. Senator Mark Hanna attended the same dinner and went on the same train. The consultation was continued on the train and in Philadelphia. Sointeresting was the lieutenant governor that after the dinner Senator Hanna took him to a club, where the conversation was kept up until a late hour.  
Senator Hanna is now said to prefer Cornelius N. Bliss for the nomination, and Mr. Woodruff urged all his reasons apparently without result. After the conference he said:

"I don't care to discuss what passed between Senator Hanna and myself. It is true he said I was too young and he was not in favor of my nomination. It is also true he said he favored Mr. Bliss."  
"All we want," said Walter B. Atterbury, chairman of the republican county committee of Kings county today, "is a free field and no favor, and we don't care whether Mark Hanna is for Woodruff or against him. He can win if the delegates are given any opportunity to express their choice."

## PRESIDENT UPHELD IN BADGER STATE

ROCK COUNTY LEADS THE REPUBLICAN PROCESSION.

General Movement in the Democratic Party to Make Dewey the Running Mate For Bryan—The Roosevelt Situation—Maine Republicans Endorse the Administration.

Milwaukee, April 12.—The election of delegates to the republican state convention is in progress throughout the state just now. As bearing on national politics it is now worth noting that in the different county conventions held resolutions are being passed indorsing president McKinley and his administration.

The Rock county convention was the first to lead off with resolutions of this kind. The Monroe county convention just held adopted similar resolutions, and it is probable that nearly every county in the state will follow suit. All this will hardly be encouraging to those Democrats who feel as if there was hope for them in the coming elections in this state.

## Dewey For Vice President.

Washington, April 12.—Admiral Dewey may consent to become the nominee of the democratic party for vice president. A movement in that direction has already been started in Washington by democratic members of congress and it is said that it will have the support of eastern democrats, especially in New York and Pennsylvania. A dispatch from New York received by the democratic leader of the house last night stated that the return of Richard Croker from England during the present month in a measure due to the announcement by Admiral Dewey that he is a candidate for president. It is believed that Mr. Croker will use his influence to secure the admiral's consent to take the second place on the ticket with Mr. Bryan.

## Hinrichsen Indorses Idea.

Atlanta, Ga., April 12.—Ex-Congressman Hinrichsen of Illinois, representing the national democratic committee, while in attendance today, speaking of the candidacy of Admiral Dewey, said: "I may say further that it is probably that the plan behind Admiral Dewey is much deeper than appears upon the surface and that there is no reason why he should not receive the nomination for the vice presidency."

## Roosevelt Must Stay Away.

A prominent official, who is also a member of the republican party, said that the whole question of whether or not Gov. Roosevelt would be nominated for vice-president rested entirely in the governor's hands. The republicans who said this added that if Gov. Roosevelt was sincere in his desire to escape the nomination for vice president he would not go to Philadelphia. The governor had been told this repeatedly, yet he desires to go as a delegate, and is now on the slate to be a delegate at large. The other delegates at large will be Senator Platt, Senator Dewey, and Chairman Odell.

## Maine Republicans Meet.

Lewiston, Me., April 12.—The republicans of Maine, in state convention here yesterday, nominated six presidential electors; elected four delegates and four alternates to the national convention at Philadelphia and adopted a platform indorsing the administration and pledging support to President McKinley. The delegates were not pledged, but the platform in this state is deemed sufficient instruction. Mention of the name of John D. Long for vice president as well as that of Theodore Roosevelt called forth applause.

## Schurz Hopes For a Third Ticket

Milwaukee, Wis., April 12.—"I had an interesting interview with Carl Schurz about political matters. Schurz hopes that for this political battle a third ticket will be placed in the field which will be the corner stone of a new independent party." The Germania and Abendpost says the above telegram was sent to it last Wednesday from New York by its political editor, just before he sailed for Europe. The telegram was not made public until yesterday, as the Germania wished more light on the subject before printing it. It quotes other German papers to show the movement has gained some foothold in the east, and also the outcome of the Boer war is a factor.

4 o'clock—Military ball.

MAY 3.

Horses Will Do the Work.

Contractors with an aggregate wealth of \$10,000,000 volunteered yesterday to go to work with hammer and saw and construct the big grand stand for the Dewey day celebration from which the admiral is to review the parade. The proposition was made at the meeting of the Master Carpenters and Builders' Association, 115 Monroe street, in the afternoon and was carried with a cheer. Owing to the complicated labor situation this was thought the best way out of a tangle which might have brought about a repetition of the fall festival trouble.

If the offer of the contractors is accepted by the Dewey committee men who can draw their check for hundreds of thousands of dollars will be seen in overall within a week sawing scuttling and driving nails within the shadow of the Union League Club, of which several of them are members. The work will require a force of 200 of the contractors.

Laura Stevens, dependent owing to ill health, took carbolic acid. Roy Munday, aged 17, a clerk in a local express office, killed himself with carbolic acid.

## BRYAN IS PLEASED WITH DR. ANDREWS

Superintendent of Chicago Schools is Elected as Head of the Nebraska University.

Lincoln, Neb., April 12.—By a vote of four to two E. Benjamin Andrews, superintendent of the public schools of Chicago, was last evening elected chancellor of the University of Nebraska, at a salary of \$5,000. It is reported that Dr. Andrews will accept, although no word has been received.

The election took place at the close of an all day session of the regents of the university. Four fusionist members of the board, Regents Rich, Teeters, Kenower and Vonforrell voted for him.

Jeremiah W. Jenks of Cornell college was a prominent candidate and probably would have been elected but for the great amount of pressure brought to bear by friends of Dr. Andrews, many of whom were fusionist officeholders of this state.

All the state officers, from governor down, urged the selection of Dr. Andrews, and it is admitted that W. J. Bryan will be well pleased at the result. Acting Chancellor Bossey is also known to have preferred Dr. Andrews to any of the candidates before the board of regents.

The university people and everyone connected with the institution say that they are well pleased with the selection.

## SPOONER ON PORTO RICO BILL

Wisconsin Senator Says It Will Not Injure the Republican Party.

Chicago, April 12.—Senator John C. Spooner of Wisconsin is at the Auditorium hotel. He is on his return to Washington, after a short visit to Madison his home.

In speaking of the action of the house yesterday in adopting the rule on the Porto Rico bill, he said it clearly indicated the passage of the bill through that body.

"This bill will not injure the republican party in the coming campaign," he said.

"The more people examine into its provisions the less opposition there will be to it. There has been a general misconception of it."

the secretary of the treasury to designate banks or bankers in Cuba, Porto Rico and the Philippines to act as depositories of public money.

## KANSAS CITY MUST USE CIRCUS SEATS

For Democratic Visitors at Kansas City Except Delegates, Alternates and the Press.

Kansas City, April 12.—It develops that it will be out of the question to complete the interior of Convention hall in accordance with the architect's permanent plans by July 4, and as a consequence temporary seating arrangements will have to be made for the Democratic national convention.

Instead of the balcony and gallery, which are eventually to be built, there will be great tiers of "circus" seats, made of lumber, built entirely around the hall for the accommodation of attendants on the convention other than delegates, alternates and newspaper men. The stage and press quarters will be completed, and there will be chairs on the main floor for delegates and alternates, but all others will have to content themselves with board seats without backs.

## PRESIDENT SIGNS PORTO RICO BILL

Much Vexed Tariff Measure Has Now Become a Law.

a Law.

## AN ISSUE NEXT FALL

Vigorous Campaign With the Central West as the Chief Field of Battle.

## WHAT THE MEASURE PROVIDES

Washington, April 12.—[Special Telegram]—The Porto Rico tariff and civil government bill became a law this afternoon. The signature of President McKinley was, the final act in a legislative struggle that will live in United States history.

What the political sequel will be none can foretell. Leaders of both parties concede that it will be a big issue at the polls next November, and they are already preparing for a big campaign, with the central West as the chief field of battle.

The bill was engrossed before its passage by the house yesterday, but the hour of the vote was so late that it was decided not to obtain the signatures of Speaker Henderson and Senate President Frye, required by law, until to day.

These officials signed the bill at the opening of today's session, and by one o'clock it was on its way to the White House, with Congressman Baker, of Maryland, chairman of the house committee on enrolled bills, as its custodian. The signature of President McKinley was followed by instructions to put the provisions of the new law into immediate effect.

## Wisconsin Members Pleased.

The Wisconsin men who were present all voted in favor of the bill, and the four absentees were paired on the side favoring the measure with leading Democrats, who would have voted against the bill had they not been paired with the Wisconsin men.

The only Wisconsin man to take any part in the debate was Representative Babcock, who took occasion in a few remarks to deny the charge, made by the Democrats based upon an alleged interview with some unnamed Republican member, that the reason for the passage of the act was that the sugar and tobacco trusts have demanded it in consideration of cash contributions to the Republican presidential campaign.

## Mr. Cooper Is Dissatisfied.

Representative Cooper, chairman of the House Insular committee, is greatly displeased with certain features of the Civil Government bill which went through as a rider to the original revenue bill. In the recent caucus of the republicans of the house Mr. Cooper outlined most of his objections. He would not vote against the bill, however, as he deemed it necessary that the policy of the administration and of the republicans in congress be carried out without delay, and to defeat the bill would have deferred action on the revenue bill, and possibly defeated it, with the result that if nothing else could be agreed upon the Porto Ricans would have been left burdened by the high rates of the Dingley act on their importations to this country.

## What Measure Provides

As the bill originally passed the house it was a simple bill imposing 15 per cent of the Dingley rates on goods going into Porto Rico from the United States and coming from Porto Rico into the United States. As amended by the senate and agreed to by the house all restrictions on goods coming into the United States from Porto Rico are eliminated and certain foodstuffs and other articles which heretofore have gone into Porto Rico free by executive order are excluded from the operation of the 15 per cent duty imposed on goods entering the island from the United States. A complete scheme of civil government for the island is also attached to the measure.

## SACRED RITES OF THE HOLY WEEK

Christianity's Climax Full of Interest in a General Observance.

## OLDEN TIME CUSTOMS

Lent and Easter Observed in the United States Since the Civil War.

## MANDATUM NOVUM DO VOBIS

The year, from the point of view of the church, is approaching its climax. The greatest feast day on the calendar, not even excepting Christmas, is at hand. Easter is supreme in significance to the Christian because it floods with light the corner-stone of his faith, the fact of the resurrection.

### The Morning of Spring.

Our word Easter is derived from the name of the Saxon goddess, Ostara, Osterr, or Eastre. She was the deification of the East, or morning of spring. April was called by the Saxons the Eastre month. There were many Easter customs deep-rooted in the hearts of the Teutonic people, and they indulged in festivities which were no more than joyous outbursts at the awakening of nature, the source of their life. These festivities coincided with the spring festivals and flower shows of pagan Rome, and in point of time with the Jewish Passover, the feast of deliverance.

Lent and Easter were not only neglected in the United States but were actually frowned down on severely through the influence of Puritanism until a recent time. Virginia, Maryland and Louisiana alone kept the fast, and the feast generally, these being Catholic centers. Small communities of Anglicans and Lutherans, also observed the season, being ritualistic. The Civil war made Easter a universal day of celebration, probably because of the countless desolate homes turning mourners to the beautiful hope of the resurrection. The most non-ceremonial of congregations have gone from an annual Easter sermon to special choral music, to lilies on the altar, or, more properly speaking, the banking of the communion rail or pulpit rostrum with these stately blossoms. Even the observation of Good Friday is shown in special prayer meetings. But by far the greatest number of Americans are ignorant of the significance of the season.

### This Week is Holy Week.

The week closing Lent and intervening between Palm Sunday and Easter is called in the ritualistic churches holy week; sometimes the week of sorrows. It is replete with days of majestic import. If the church, speaking broadly, and catholicity, has been the inspirer of art under its many forms, this inspiration has most vitally proceeded from the significance of the week about to close. This is the vital time. The ceremonies of holy week hold in themselves the principles of art, being dramatic in the highest, noblest sense.

Palm Sunday commemorates the triumphant entrance of the Savior into Jerusalem, and also the beginning of the passion. The one crowd quickly upon the other. The church is forced to concentrate its lesson, though in reality the events lay not far apart. The dramatic procession of the palms in the papal chapels of St. Peter's is followed immediately by the opening of that service commemorating the sublime tragedy of the passion of Jesus.

### A New Commandment

During Monday and Tuesday the ritualistic churches had no public office. With Wednesday evening the Tenebrae began. The word means darkness, and the service is commemorative of the darkness of the world when the Savior died. In the Roman church candles are gradually extinguished while the lamentations of Jeremiah are sung. The institution of the eucharist is celebrated Thursday, and this day gets its name Maundy Thursday from the words said at the last supper: "A new commandment give I unto you" (Mandatum novum do vobis).

The consecrated elements are carried to a side altar, known for the time as the

sepulcher. The main altars are stripped, penitential purple is changed for black, the church is in mourning, without in cease or light. On Good Friday, the day of the crucifixion, the cross, which has been veiled for two weeks, is uncovered and venerated by the devout, who go from church to church to pay respect and devotion to the representation of the sepulcher.

## WOODMAN'S PICNIC CAN BE SECURED

Janesville Can Have at Least 20,000 Visitors Here in One Day Next Year if Merchants Desire.

It is for the merchants of Janesville to say whether or not the Modern Woodman's Picnic association of Southern Wisconsin and Northern Illinois hold their annual picnic in Janesville next year. What is needed is \$1000 in cash to pay the expenses, and this sum will have to be raised by the merchants and residents of Janesville.

The location of the picnic for 1901 will soon be made at a specially called meeting to be held within the next few days. Prominent members of the local order of Woodmen state that they can secure the picnic for Janesville but that they must first see what the merchants intend to do in a financial way toward defraying a portion of the expenses.

The cost alone of the many visiting bands is quite an item of expense. Several of the leading merchants of the city have been approached on the subject, and while the majority favor the securing of the picnic, there are many who do not favor the plan.

A committee was appointed by Florence camp No. 366 to make a canvass for funds. The members appointed were Frank P. Starr, W. H. Ashcraft, Charles W. Brooks, Orville S. Morse and S. M. Fisher.

### Oppose Any Change in Creed.

Marshall, Mich., April 12.—The Lansing presbytery, comprising the counties of Calhoun, Barry, Eaton, Jackson and Ingham, which has been in session here for two days, has closed. It was voted to hold the next annual meeting in Jackson in 1901. The Rev. Joseph Swift of Port Huron was elected delegate to the general assembly, which meets in May in St. Louis, and E. W. Golden refused to discuss the matter, holding his hand on his pistol until detectives came and took him to Georgetown.

### Five Thousand Miners Quit.

Frostburg, Md., April 12.—Five thousand miners of the Georges creek region have struck for an increase of wages and the recognition by the operators of the United Mine Workers of America. On the other hand, the miners claim that they are prepared to continue the contest indefinitely.

## "MY OWN SELF AGAIN."

Mrs. Gates Writes to Mrs. Pinkham, Follows Her Advice and is Made Well.

"DEAR MRS. PINKHAM:—For nearly two and one-half years I have been in feeble health. After my little child came it seemed I could not get my strength again. I have chills and the severest pains in my limbs and top of head and am almost insensible at times. I also have a pain just to the right of breast bone. It is so severe at times that I cannot lie on my right side. Please write me what you think of my case."—MRS. CLARA GATES, Johns P. O., Miss., April 25, 1898.

"DEAR MRS. PINKHAM:—I have taken Lydia E. Pinkham's Vegetable Compound as advised and now send you a letter for publication. For several years I was in such wretched health that life was almost a burden. I could hardly walk across the floor, was so feeble. Several of our best physicians attended me, but failed to help. I concluded to write to you for advice. In a few days I received such kind, motherly letter. I followed your instructions and am my 'old self' again. Was greatly benefited before I had used one bottle. May God bless you for what you are doing for suffering women."—MRS. CLARA GATES, Johns P. O., Miss., Oct. 6, 1899.

## She was the fond mother of a fine baby. But it was a crying baby.

She was the fond mother of a fine baby. But it was a crying baby. She unclothed it and looked for pins. Nothing was hurting it. She looked to the baby's food. It was sweet and wholesome. But the baby still cried and wailed. Then she called the doctor. He examined the child and said "starvation."

## "The child is crying for food."

"But," said the mother, "it has all the food it will take." "The question of starvation," replied the doctor, "is not how much food is taken but how much is assimilated and goes to nourish the body."

Pain in the body is often only the outcry of starvation. You eat enough but the stomach is not doing its work, and the nervous system is starving. Put the stomach right and the pains will cease, together with the uncomfortable consequences of the condition. There is no medicine made which can equal Doctor Pierce's Golden Medical Discovery in the quickness of its action on the stomach.

It cures diseases of the digestive and nutritive system, increases the action of the blood-making glands, and so induces a proper and perfect distribution of the necessary nourishment to blood and bone, nerve and muscle throughout the whole body. There is no alcohol, opium or other narcotic contained in "Golden Medical Discovery."

"I wish to say to the world that Dr. Pierce's Golden Medical Discovery has proved a great blessing to me," writes Mrs. Ellen E. Bacon of Shutesbury, Franklin Co., Mass., "as I firmly believe I should be in a very bad state now if I had not taken it. Prior to September, 1897, I had been doctored for my stomach trouble for several years, going through a course of treatment without any real benefit. In September, 1897, I had very sick spells and grew worse; could eat but little. I commenced in September, 1897, to take Dr. Pierce's medicine and in a short time I could eat and work. I have gained twenty pounds in two months."

## A Man's Apparel

Does not

Do not wash your hands and face with a common laundry soap, or if you do, don't complain when you find them rough, hard and chapped. Ordinary laundry soaps are good for scrubbing floors, but not for the skin. Ivory Soap makes a creamy lather that rinses easily and takes the dirt with it. The natural oil of the skin washed with Ivory Soap is not removed, and the skin is left soft and smooth.

# BOERS TO FORCE THE FIGHT.

Important Military Operations on Tapis.

HEAVY GUNS ARE IN ACTION.

Force of 35,000 Boer Soldiers with Ninety Guns in Front—Range Between Kroonstad and Winburg Impregnable—British to Move South.

London, April 12.—The suspicion that the Boers have been encamped in the Biggarsberg range ever since the relief of Ladysmith have grown tired of the inactivity and have started out to force General Buller into a fight is confirmed by later dispatches regarding Tuesday's engagement at Sunday River camp. The Boers began by shelling the British with a six-inch gun mounted on one of the spurs of the Biggarsberg. Gen. Buller ordered his big guns to reply, and an intermittent practice followed. The British troops also manned the trenches and opened rifle fire, but so far as known little damage was done on either side. The Daily Mail's correspondent is of the opinion that the Boers used their cannon at long range as a mere blind to draw attention from a contemplated move in another direction, the nature of which the British are unable to discover. Gen. Buller is also apparently in the dark regarding the extent of the Boer force or the exact positions they occupy. There is a belief in the British camp that the Boers are no longer in force behind Matawanas Kop, a hill some miles northeast of Elandslaagte. To prevent sudden raids Gen. Buller has sent his cavalry to watch all the passes. The British infantry is at present entrenched from Jonnos Kop to Jobs Kop, holding a line thirteen miles long. Jonnos Kop was one of the positions held by the Boers in the battle of Elandslaagte on Oct. 21. The naval guns are in position upon the actual battlefield of Elandslaagte, about the center of the British line. They now number seven or eight heavy guns, among them two or three six-inch. The others are 4.7-inch caliber.

Lord Roberts' official dispatches admit that the Boers are still active in the Orange Free State, but make no mention of the third Boer victory, alleged to have taken place at Meerkatsfontein. This fact is accepted by some of the London papers as evidence that the report is a fake; but it does not necessarily follow, for the reason the British have been slow of late in reporting their reverses. Lord Roberts says that one Boer commando is on the Orange river, near Allwal North, and that another is attacking Wepener, which place, however, is not only holding out but has inflicted a heavy loss upon the Boers. Messages from other sources state that the British casualties in Monday's fighting at Wepener were eleven killed and forty-one wounded. There is no news later than Tuesday from the detachment at Wepener, as the weather is cloudy and the heliograph therefore useless.

The following figures on British losses are issued by the war office in London: Killed in action, 211 officers, 1,960 men; died of disease, 48 officers, 1,485 men; died of wounds, 48 officers, 1,485 men; repatriated invalids, 288 officers, 4,934 men; missing and prisoners, 163 officers, 3,722 men; last week's losses (estimated), 96 officers, 1,254 men; wounded and in hospitals (estimated), 566 officers, 7,984 men. Totals, 1,327 officers, 21,938 men.

It looks as though Lord Roberts may be preparing to take a strong force to clear the Boers from behind him. A Cape Town dispatch says that he will not make any move for another week owing to the necessity of gathering

stores and supplies. A dispatch from Allwal North, dated Wednesday, April 11, says: "Lord Kitchener arrived here today and left soon after. A Boer big gun was knocked over yesterday at Wepener. The garrison is holding its own. There has been heavy cannonading there again today." The correspondent of the Daily Mail at Lourenco Marques says: "Thirty-five thousand Boers, with ninety guns, are concentrating on the range of hills between Kroonstad and Winburg. The whole line is fortified and is almost impregnable."

A news agency dispatch from Pretoria, dated Tuesday, says it is reported there that Col. Baden-Powell, who commanded the garrison at Mafeking, since the outbreak of the war has been excited over the retirement of Gen. Gatacre.

## SNOW ON PLANTED CORN.

## PLAGUE IS ACTIVE IN HAWAII.

Report Up to March 31 Shows Seventy Cases.

Washington, April 12.—A report on bubonic plague conditions in Hawaii up to March 31, has been received by the marine hospital service from Surgeon Carmichael, stationed at Honolulu. The total cases to date number seventy, of which sixty died, nine recovered and one is in the pest hospital. Of those who died thirty-two were Chinese, eight Japanese, sixteen Hawaiian and four whites.

## Strike May Tie Up Traffic.

Evansville, Ind., April 12.—The steamboats on the Ohio river between Louisville and Paducah, Ky., are having difficulty in getting coal and many of the boats are burning wood. There is not a mine running in this state below the Baltimore and Ohio road. The mines at Utopia and Morgantown, Ky., were closed because the union miners had sent word to the operators that they must close or the mines would be blown up. The 500 coal miners who assembled at Washington, Ind., from Greene, Gibson, Pike and Warrick rich counties and transformed the Cabel ranks from non-union to union miners left for their homes. Former employees will return to work at once.

## River Craft Prey of Flames.

Rock Island, Ill., April 12.—Kahlike Bros' boat harbor, west of this city, was swept by a destructive fire Wednesday night. Three steamers and five other craft, barges and yachts, were burned to the water's edge, causing a loss of \$44,000. The vessels destroyed, with their owners and values, follow: Packet Volunteer, barge Comfort, \$14,000; steamer Mascot and houseboat, C. H. Deere, \$8,000; steamer Saturn, Capt. G. W. Winans, \$16,000; launch Lotus, Lindsay & Phelps, \$2,000; barge Trilby, Davenport Fishing company, \$2,000; barge Little Verne, Capt. John Street, \$900.

## FRAUD ON THE GOVERNMENT.

Insufficiently Stamped Tobacco Seized in San Francisco.

San Francisco, April 12.—Five hundred pounds of plug cut tobacco have been seized in various local stores by internal revenue agents because the packages were insufficiently stamped. This tobacco, manufactured by a St. Louis firm, has been put up in packages weighing from an ounce and three-quarters to two ounces, and the packages had been uniformly stamped as weighing an ounce and two-thirds. Collector Thomas, who made the discovery of this revenue law violation, says that the fraud evidently has been carried on very extensively, and he estimated that the cost to the government has been fully \$50,000 a year. A general search for understamped packages has been begun, and all tobacco found to exceed the weight indicated by the stamps will be confiscated.

## DISAGREE ON WAGE SCALE.

Conference of Iron Founders and Molders in a Failure.

Cincinnati, April 12.—Representatives of the National Iron Founders' association and of the International Iron Molders' union, after a two days' conference here, have disagreed on the subject of a wage scale. The demand of the men was for an advance of 25 cents a day on the minimum wages of \$2.75 and for other concessions. The outcome will depend now on the action of local unions throughout the country, and may result in a combination to enforce the demand.

## Mexico Has the Prisoner.

El Paso, Tex., April 12.—Blas Aguirre, an American citizen wanted in Mexico for murder, was surrendered by the United States marshal to the authorities of Juarez. Aguirre and others made a raid into Mexico last spring and shot a Mexican to death. Aguirre was arrested on this side the border and the Mexican authorities demanded his surrender under the terms of the international treaty. A trial was held before the United States commissioner and the surrender of Aguirre was granted.

## Postoffice Is Burned.

East Liverpool, O., April 11.—The East Liverpool postoffice is gutted by fire. Much of the loose mail and that in boxes was destroyed. The mail still in pouches was saved. The loss on mail can not be estimated. Damage to this building will amount to about \$1,000.

## "Housework is hard work without Gold Dust"

### TO CLEAN NURSERY BOTTLES

After the bottle has been used, rinse it thoroughly in warm water; then fill with warm water containing a teaspoonful of

Gold Dust Washing Powder and let it stand, shaking every now and then. If rubber tube is used let it remain also in the water. Rinse through clean water several times. Gold Dust is much more effective than soap to clean them, as it removes all specks and mites clinging to the sides of the bottles.

The above is taken from our free booklet "GOLDEN RULES FOR HOUSEWORK." Sent free on request to THE N. K. FAIRBANK COMPANY, Chicago, St. Louis, New York, Boston.

## THIS DAY IN HISTORY.

1777—Henry Clay, statesman, called "The Great Pacificator," born in Hanover, Va.; died 1852.

1850—Rev. Dr. Adoniram Judson, missionary to Burma, died at sea; born in Malden, Mass., 1788. After graduating at Brown university Judson became a Baptist. He afterward changed his views and entered Andover Theological seminary, turning his attention to the subject of foreign missions. He was volunteered to go to India and on the voyage became a convert to baptism by immersion. This cut him off from the society which had sent him abroad. After some difficulty he went into Burma and mastered the language. He preached and issued tracts, and, although often interfered with by native powers, and once imprisoned for over a year, he made over 20,000 converts. The Bible was translated into Burmese by him.

1861—The first shot at Sumter; beginning of the civil war.

1879—General Richard Taylor, only son of General Zachary Taylor and a noted Confederate leader in the southwest, died; born 1826.

## REMEMBER MR. WHITEHEAD

Senator Whitehead's classmates at Yale college have not forgotten him, and are interested in his candidacy for governor. The Washington, Connecticut, American says: "Yale men of twenty years ago will remember with affectionate interest John M. Whitehead of the class of 1877. He is the type of Yale man of whom Yale's friends are the proudest, the sort of man who worked his way through college, self respecting, independent, never ashamed of poverty and commanding by his character the esteem of his classmates. That type of man seldom fails of success in the world and Mr. Whitehead again justifies the type. As a lawyer in Janesville, Wis., he has made a state reputation at the bar and in politics and the announcement of his candidacy for the governorship on the republican ticket has made him most favorably received by the leading newspapers of the state. His old college friends in the east will watch Mr. Whitehead's future with confident expectation that it will fulfill its largest promise."

The Milwaukee correspondent of The Chicago Times-Herald writes as follows:

So far, however, Mr. Bradford seems to have the lead in the race, with A. M. Lecky Jones and Senator Stebbins disputing for second place. Senator Whitehead is expected to make them all uneasy to keep him out of the front rank, and there are some politicians who assert confidently that the final split will be between Bradford and the man from Janesville. But it is a long way to the state convention, and no one can tell what will happen before that time.

Beloit's municipal motto is "modern improvements," and the new council will take up the work where the old council left off. Beloit is gaining population rapidly—more rapidly than Janesville. The moral therefore is plainly apparent: "Nothing ventured, nothing gained."

In saying "I am a democrat," Dewey has infringed on the copyright of one David Bennett Hill; but as Hill has passed on down the road and has not been seen or heard from for a long time, perhaps no legal action will be taken.

It will take eight months time with three steam shovels working night and day to build one of the embankments required by the Janesville and South Eastern railroad—thus making it plain that it is a "high grade line."

The Wisconsin silver democrats have invited the gold men to come back and help saw the wood, but up to the hour of going to press the gold men had not accepted the invitation with any show of "glad acclaim."

The resolution adopted by the Wisconsin Democratic State Central Committee would make it appear that while the committee is outwardly in favor of Col. Bryan, it is inwardly in favor of some one else.

Between the ticks of a watch a ray of light, it is averred, could move eight times around the earth. Moral—When you want to find a Janesville policeman send a ray of light after him.

Judge W. P. Lyon has been re-appointed as a member of the State Board of Control for a five year term. Judge Lyon has discharged his duties faithfully and well, and his re-appointment is a wise move.

The city should buy a ton of modern deodorizing material and use it in the city hall. The atmosphere in the city offices is so thick that a sharp knife is required in order to cut it.

Now that Dewey's aspirations have become an old story, the war news has been reinstated and appears on the first pages again.

Melba's divorce case came up just in time to prevent Olga Netherside from retaining the exclusive court advertising privilege.

Dewey says his Chicago trip will be

"without political significance." Evidently the distinguished candidate is beginning to "come too."

Constant Reader—Do not be too exacting. It is doubtful if the senate can get around to the Quay case before the end of the session.

What does Dewey mean when he says his "platform is the American flag?" That he would make us all wear stripes and see stars?

Now that Dry Tortugas has been turned over to the navy it would seem that the name should be changed to Wet Tortugas.

If the Hayes Bros. get that railway contract, it is safe to wager that no grass will grow under their scrapers.

Clark took long chances when he measured strength with Daly—Daly's name is also Marcus.

If the General Miles' boom was not loaded with smokeless powder, it was certainly a squib.

There is nothing cheap about Senator Clark. As the ladies say, "he's a dear man."

Of course Democrat Dewey would distribute Manila cigars.

Theater-Going an Offense.

Fort Dodge, Iowa, April 12.—Sheriff Dowd and wife left for the Mitchellville state reform school with Clara and Minnie Montgomery, 14 and 16 years old. The chief charge against the girls has been their attendance at every performance in the local theater, both afternoon and evening, without chaperons. Judge Birdsall today, therefore, issued orders committing them to the reform school.

No Money for Waukegan Harbor.

Waukegan, Ill., April 12.—Congressman Foss writes that there is small hope of passing the appropriation of \$345,000 recommended for enlarging and deepening Waukegan's harbor at this session of congress. He expects to put it through the next session though. Meantime the city and coal company will keep the harbor in shape.

Soldiers Ordered to Alaska.

Columbus, Ohio, April 12.—Company G of the Seventh United States regular infantry regiment stationed at Columbus barracks, Ohio, has been ordered to Fort Valdez, Alaska. The regiment is being equipped for a year's service in the arctic region, and will leave for Seattle in a special train about April 16.

New Street Railway President.

Indianapolis, Ind., April 12.—Hugh J. McGovern has been elected president of the Indianapolis Street Railway company to succeed H. P. Wasson, who resigned, it is said, because he would not sanction the policy of the company in opposing the unionizing of motormen and conductors.

Millionaire Is Still in Jail.

New York, April 12.—The millionaire mine-owner, George W. Hull, founder of Prescott, Ariz., made an ineffectual attempt to be released from jail. He is in durance on a charge of perjury preferred by his wife, from whom he recently secured a divorce, and a habeas corpus writ has been issued by the supreme court. The writ was dismissed and Hull sent back to jail.

## Orangeine

"Woman's Comforter."

(Third Lesson.)

**What It Does for Humanity.**  
Briefly, it almost instantly stops all pains and aches, Headaches, Neuralgia, Rheumatism, even Toothache, and through its action on nerves, stomach and liver, it cures "Grip," Catarrh, Hay Fever, Asthma, Colds, Diarrhoea, Nervousness, Sleeplessness, Seasickness and other "every-day ills." In the Chicago "Grip" epidemic of 1899 it never failed to cure when taken under the simple but complete directions given; and the Hay Fever "powder before each meal and before retiring" last summer proved "Orangeine" to be the first and only sure relief from this dread disease. Every package contains full directions from Dr. Aikman's long and varied experience. (See Lesson No. 4.)

Stevens Point, Wis., April 12.—The state spiritualist mass meeting to be held in Stevens Point, April 17, 18 and 19, will bring together some of the best minds in spiritualist work in the United States. Harrison B. Barret, president of the N. S. A., a former professor in Pennsylvania colleges and editor of the Banner of Light of Boston, is one of the foremost organizers of the country. He has been president of the association for seven years.

Miss Margaret Gaul of Baltimore, is one of the most prominent test mediums in the United States. She was educated in a Catholic convent, and forced to leave on account of her early development of clairvoyance. G. W. Gates and wife of Minnesota, have a reputation that reaches beyond its boundaries.

Long-Lost Silver Mine Found.

Austin, Texas, April 12.—Information reaches here that the lost Spanish silver mine near the head of the Rio river has been rediscovered, after a century of inactivity, and preparations are being made to work it on an extensive scale. The discovery was made by Thomas Hondell, a ranchman. The mine is about sixty-five miles from Ponder. Spanish records say the mine is fabulously rich.

## JAMES WINTERS DECLARED INSANE

EX-ENGINEER ON THE NORTH-  
WESTERN ROAD.

Friends Allege That Constant Worry-  
ing Over Being Discharged Un-  
balanced His Mind—Taken to the  
Hospital at Mendota. This Morning  
by Officer Wallace Cochrane.

Engineer James Winters was taken  
this morning from Janesville by Officer  
Wallace Cochrane to the state hospital  
for the insane at Mendota suffering with  
insanity. Mr. Winters has been residing  
on Dodge street and has a wife and  
one daughter.

Friends allege that constant worrying  
over the fact that he was discharged  
some months ago from the capacity of  
locomotive engineer on the Chicago &  
Northwestern railroad has unbalanced  
his mind. Mr. Winters is 58 years of  
age, for many years has been a faithful  
employee of the Northwestern company.  
It is claimed that his discharge was  
brought about as a result of excessive  
drinking.

Friends assert that Mr. Winters was  
not a hard-drinking man, but that he  
frequented a certain West Milwaukee  
street saloon merely as a place to read  
the papers and meet friends. For several  
weeks Mr. Winters has been on the  
sick list and of late has been failing  
fast. Drs. James Gibson and J. B.  
Whiting, Jr. made the examination.

## SPECIAL SERVICES FOR GOOD FRIDAY

Local Catholic and Episcopal Churches  
Will Observe This Sacred Day  
—at All Souls Church.

Good Friday comes tomorrow and in  
the local Catholic and Episcopal  
churches special services will be held

will be provided at each of the churches

largely attended.

A Good Friday service has been  
planned for tomorrow evening at All  
Souls church. The program promises  
to be unusually interesting and impres-  
sive. After the address and readings  
by Mr. Wilson to the memory of Jesus,  
the following program is presented:  
Address, "The Trial and Conviction of  
Jesus, Considered From a Legal Stand-  
point," Attorney William Smith. Ad-  
dress, "The Physical Sufferings and  
Death of Jesus," Dr. Buckmaster.  
Reading, selected, Mrs. Day. Solos will  
be rendered by Mr. George Paris and  
Mr. Garbutt. Service will commence at  
7:30 in church parlors.

Tomorrow, Good Friday, there will be  
services in Christ church as follows:  
9 a. m., morning service and sermon; 12  
m. to 3 p. m., the three hours' service  
with addresses on the "seven last  
words"; at 7:15 p. m., evening service  
and sermon.

At Trinity church there will also be  
special services. In the Catholic churches  
the usual Good Friday Ceremonies will  
take place.

## EDWARD E. BATES MAY SUE

A Marriage That Grew Out of an Edger-  
ton Divorce Suit

Edward E. Bates of Edgerton, it is  
said, is about to bring suit against Dr.  
E. L. Sheppard, also of Edgerton, for  
\$25,000, for the alleged alienating his  
wife's affections. Mrs. Bates was granted  
a divorce from her husband a few  
weeks ago by Judge B. F. Dunwiddie of  
this city. On Wednesday of last week  
Dr. Sheppard and Mrs. Bates were  
married in the parlors of the Palmer  
house, Chicago, by the Rev. Dr. Thomas.  
Dr. Sheppard's former wife died last  
August.

TOMATOES A LA CUBA.—Choose firm,  
ripe tomatoes that are very fresh; cut them  
crosswise in halves, but do not peel. Boil  
slowly (skin side down) over a moderate  
fire for ten minutes, put a piece of butter  
on each half and flavor with salt and pepper.  
Garnish with parsley.

OLIVES.—Whether the Queen or Baby  
olives are used they should always be kept  
on ice and the bottle well corked. Nothing  
spoils more quickly with exposure to the air  
than olives. They soon become soft and un-  
palatable. Pack a dish with cracked ice and  
pile the olives on top. Serve with the chief  
course.

## FAIR SHOP LIFTERS BEFORE THE COURT

BORT, BAILEY & CO. MADE THE  
COMPLAINT TODAY.

Both Women Plead Guilty and Each are  
Fined Five Dollars—Both Informed  
the Court That They Will Reform—  
Were Arrested by Chief Hogan—  
Are Well Known Characters.

Before Judge C. L. Fissfeld, of the  
Rock county municipal court, at 2  
o'clock this afternoon, two women resi-  
dents of Janesville appeared on the  
charge of stealing from the local dry  
goods store of Bort, Bailey & Company  
the following goods on April 4: Six  
and three-quarter yards of plain dress  
goods of the value of ninety-one cents.  
When their case was called the fair  
prisoners pleaded guilty and were fined  
\$5 and costs each or a total of \$5,  
which fine they agreed to pay by next  
Monday morning. They were then re-  
leased.

Judge Fissfeld informed the prisoners  
that the result of the light fine was at  
the request of W. H. Greenman, of the  
firm of Bort, Bailey & Company, who  
specially requested that the prisoners  
be given the minimum fine. The women  
both informed the court that this  
would be their last offence of this kind.  
Chief Hogan made the arrest today at  
their homes.

District Attorney W. A. Jackson ap-  
peared for the state. The fair defend-  
ants had no lawyer.

## SERIOUS REVOLT IN ASHANTI.

Governor in Hands of the Warring Natives.

## FEAR FOR CAPE COAST CASTLE.

British Troops Not Numerous Enough to Take Field Against the Tribesmen—Volunteers Offer to Fight—Sierra Leone Asks for a Gunboat.

Accra, April 12.—Reports are in circulation here and at Cape Coast castle that the governor of Kumassie is in the hands of the enemy. The greatest fear is felt for Cape Coast castle if a reverse has been sustained and if the rebellion continues. It is understood that Sierra Leone has asked for a gunboat, but the troops there are not in sufficient numbers to leave the colony. Volunteers have offered for service at the front. The Accra natives profess their willingness to do service if armed. Mr. Masel, the missionary, writes from M'Preiss, under date of April 7, that five English officers and forty Haussas have been killed, and complications are feared with surrounding native states. The chief executive officer, however, still minimizes the seriousness of the situation.

London, April 12.—The colonial office has received reassuring news from the governor of the Gold Coast, Sir Frederick Mitchell Hodgson, announcing that the situation at Kumassie has much improved. He adds that apparently there is now no danger of the trouble spreading, and he is hopeful of a speedy restoration of peace.

**Snake Startles a School.**  
Cincinnati, Ohio, April 12.—Feminine shrieks startled the pupils of the Walnut Hill high school. Boys had brought a snake to school in a box as a zoological specimen and amused themselves during school hours by showing it to the girls in Miss Rice's room. Miss Rice tried to throw it out of the window, but the box lid flew off. Horror-stricken when she saw the snake wriggling along the floor, Miss Rice gathered up her skirts and fled, while the air was filled with cries of terror from the girls as they wildly scrambled to places of safety.

**Would Break Hennessy Will.**  
Dubuque, Iowa, April 12.—A petition was filed in the District court by Michael J. Hennessy, brother of the late Archbishop Hennessy, asking the revocation of the instrument purporting to be his last will and testament, and the issuance of an order by the court declaring it null and void.

It is claimed that two other wills of subsequent date have been discovered, which materially change the bequests as to relatives, but not the donations to religious purposes, which take in the bulk of the estate.

**The Barnickol Murder Trial.**  
Belleville, Ill., April 12.—The trial of Charles Hastings, George Godfrey, John Dugan, James McGerchin, Michael Kennedy (alias Harry Wade), Richard Frankle, John Bennett (alias Monk Dexter) and John Liddy, under indictment for the murder of Sheriff Herman Barnickol, is on in the Circuit court, Judge Burroughs of Edwardsville presiding. James Allen, also under indictment for the murder, will be tried at Carlyle this month, having secured a change of venue.

**Repair Ruin Made by Floods.**  
Austin, Tex., April 12.—The Colorado river is rapidly assuming its normal flow of water and the settlers throughout the lately inundated valley are already at work repairing the damage done by the unprecedented overflow. No steps have been taken toward rebuilding the great dam at Austin, but representatives of the bondholders will come here to make a rebuilding proposition to the city.

## YES OR NO?

Janesville People are Respectfully Asked to Answer These Questions.

Is there anything in the evidence of one's senses?  
Is there anything in the testimony of one's friends?  
Can reliance be placed upon statements from people we know?  
Are the opinions of local citizens of any greater moment than those of strangers?  
Would you sooner believe people living in some far-away place than citizens of your own city?

We think not! For home proof can easily be investigated.

Mr. John Stetson, of Hotel Myers, day clerk, says: "A physician pronounced my trouble kidney complaint. If the severe pain across the small of my back is any indication of the said complaint, I guess I had it. For two years I suffered with attacks, sometimes virulent, sometimes a dull, grinding ache, which robbed me of considerable energy. I used in addition to doctor's prescriptions, several preparations said to be sure cures for kidney complaint, but up until I procured Doan's Kidney Pills at the People's Drug Co.'s drug store, I received little if any permanent relief. I took a thorough course of treatment prescribed by Doan's Kidney Pills and it cured me. Up to date I have not noticed any recurrence of my old trouble."

Sold by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name, Doan's, and take no other.

## Losing Flesh.

More than half the sickness and disease in the world comes from exhausted nerves. When the nerves are weak the digestion is imperfect, and the blood becomes deficient in nutritive principles. The heart is affected, circulation retarded, liver and kidneys deranged and the general health suffers. People who are losing flesh, are nervous, restless, cannot sleep at night, are irritable of temper and easily excited. There is one thing lacking to make the harmony of the system complete and that one thing is nerve force. Dr. Miles' Nervine makes nerve force. It is the exact remedy for that large class of feeble-minded, thin-blooded and nervous persons whose greatest need is rest and quiet for the weary brain and nourishment for the wasting nerves and failing strength. It feeds and cures.

"My wife was nervous, weak, restless, could not sleep, and nothing that she ate did her any good. In spite of all her physicians could do for her, she continued to fail and waste in flesh until she had lost sixty-three pounds. I finally bought a bottle of Dr. Miles' Nervine and she began taking it. In four days she wanted to start cleaning house—the first time she had felt able to work in eleven months. She could go to bed at night and sleep soundly until morning, and she began gaining in weight. In three months she had regained her lost flesh and weighed ten pounds heavier than before her illness." Geo. B. RATHBUN, 65 Bridge St., Springfield, Mass.

## ITS MAJORITY IS EIGHT.

Puerto Rican Measure Passes the House.

## DEBATE NEARLY FOUR HOURS.

Senate Favors Pacific Cable—Measure Carrying \$3,000,000 Goes Through Without Objection—President Sends Nominations to Senate.

Washington, April 12.—The house Wednesday afternoon, after three and one-half hours' debate, passed the Puerto Rican bill by a vote of 161 to 153. It will now go to the president, and he is expected to place his signature to it Thursday. Most of its provisions will take effect May 1.

Speeches were made during the discussion of the bill by Mr. Dalzell of Pennsylvania, Mr. Richardson (dem.) of Tennessee, Messrs. Warner, Hopkins and Lorimer of Illinois and Mr. Payne of New York. The Hawaiian bill was sent to conference just before the house adjourned.

With little debate of importance the senate passed the Pacific cable bill, a measure appropriating \$3,000,000 for the construction of a cable line between San Francisco and Honolulu. The bill was unanimously reported by the committee on naval affairs, and that it was passed without serious objection is regarded as a compliment to the committee. During the greater part of the session the District of Columbia appropriation bill was under consideration. As passed it carries nearly \$3,000,000.

The president sent the following nominations to the senate: Daniel W. Patrick of Gold Hill, N. C., to be census supervisor for the Second District of North Carolina. War—Artillery: To be captain, First Lieut. I. N. Lewis, Seventh; to be first lieutenant, Second Lieut. S. F. Bottoms, Sixth. Infantry: To be first lieutenant, Second Lieut. William K. McCue, First. Navy—To be second lieutenant in marine corps, John P. V. Gridley of Pennsylvania.

## THE PENSION ACT OF 1890.

Amendment to Create Court of Pension Appeals.

Washington, April 12.—It is likely another attempt is to be made to make more elastic the pension act of 1890 which abnormally increases the pension rolls. From time to time officers of the Grand Army of the Republic have expressed their displeasure with the decisions of the board of pension appeals, which have rejected many claims as unworthy. That there has been a standing feud between the G. A. R. and Commissioner Evans of the pension department has been made clear upon the floor of the lower house during the consideration of the appropriation bill granting the salary for his office and whenever private bills are under discussion. The merits of the case are hard to determine. Commissioner Evans has, nevertheless, obtained warm endorsement from certain quarters for the impartial and judicial manner in which he has passed upon pension claims. The G. A. R. has submitted to the house committee on invalid pensions an amendment creating a court of pension appeals, whose decisions shall be final and to which all contested claims are referred. It is proposed incidentally to advance the age limit on which pensions are to be allowed and increase from \$96 to \$250 the amount of annual income which a widow may have without forfeiting her right to a pension.

Legislation is to be urged at this session of congress by the commissioner of immigration to establish an inspection service along the Canadian frontier to prevent immigrants from slipping over the border from Canada who are rejected at American ports because of the prohibition laws defining educational and moral standard. A bill has likewise been introduced in the senate, in view of the present unrivaled influx of immigrants from southern Europe, to make the restriction laws more rigid. Commissioner of Immigration Powderly is authority for the assertion that the immigration for the current year will aggregate over half a million and may eclipse the highest record of 1892, when 623,084 immigrants arrived in this country. It is generally believed that the fear of military service and impending wars, coupled with the prosperous condition in this country, attracts the natives of foreign countries to American shores to gain livelihoods. An average of 10,000 immigrants are being received weekly at New York. Many of them are industrious, honest peasants who are migrating to the Northwest and Middle West agricultural states.

Quay's friends in the senate are working vigorously to obtain a majority of votes in his behalf when the question of seating the Pennsylvania appointee is finally to be voted upon two weeks hence. The rejection of Clark of Montana, by the committee on privileges acted somewhat gloomily upon the spirits of the Quayites, but they are confident they can obtain enough votes to seat the former senator. Another disagreeable feature for the Quay faction is the apparent disintegration of the Quay machine in Pennsylvania as evidenced at the primary elections.

## Death from Yellow Fever.

New York, April 12.—The British steamship Dunstan has arrived here from Manaus and Para and reported one death from yellow fever on the voyage. Capt. Jones said on March 29, shortly after leaving Para, James McGrath, 34 years old, a fireman, was reported ill. He died March 31 of the disease, and the body was buried at sea.
